Dear Harold:

Joe Arnold does a talk show on WHAS 84 from midnight to 5am.

He had Mary LaFontaine on early this week. I called the show, was on from 1:08am to 1:18 am, advising him to read Selections from Whitewash and Never Again! He said he knew who you were, a "walking encyclopedia on the JFK case".

He said he would like to have you on his whow, so I wrote the enclosed letter and the 4-4-67 FBI memo.

don't know when or if he will contact you.
Take carek

Bill

Anyway, throughout the Eastern half of the nation, your name and books were being advertised for free by me! He even had me explain the magic bullet!

His main reading seems to have been David Lifton, but he seems to have some knowledge, in spite of that handicap!

Wednesday night at midnight, Nov. 19-20 morning.
